Ron Parker  
President  
Shared Services Canada  
99 Metcalfe Street  
Ottawa, ON K1G 4A8

Dear Ron,

On behalf of the Information Technology Association of Canada (ITAC), I wanted to personally thank you for both your time and attention during our Hill Day on February 23. ITAC intends on being a strong partner and will provide constructive advice on how Canada can move its Digital Agenda forward.

As discussed, the Government of Canada has an opportunity to become a model user of technology, to innovate public services, and set expectations on how client centric services should be delivered. This will increase productivity and encourage other markets to follow suit, all the while spurring digital adoption.

The digital economy is the single most important driver of innovation, competitiveness and growth for Canada. This is why the plans and priorities of Shared Services Canada are so important and why early engagement on the transformational planning piece is mission critical. It supports your own modernization agenda for the Government of Canada and to help Canada become a global leader.

We look forward to our future engagement with John Glowacki and team, to discuss how ITAC can best support your road ahead. Additionally, we will circle back to follow up on the related initiatives (one-off events i.e. Sciences, policy support, etc.) discussed in our meeting.

With your help, ITAC can be a strong partner and an industry association sought after for constructive advice on how to transform government service delivery while helping Canada move its Digital Agenda forward.

Regards,

Karna Gupta  
President and CEO
