

CATALYST CANADA

PRESENTS

Accelerating Change in the Boardroom

There is a global shift taking place in boardrooms across the world as more and more companies prioritize diversity and gender representation on their boards. In Canada, the federal and provincial governments and seven provincial regulators are considering ways to accelerate the pace of change. More and more business leaders and organizations are supporting efforts to do the same.

Please join [Kathleen P. Taylor](#), Chair of the Board, RBC, for a discussion with [Trent Henry](#), Chairman and Chief Executive Officer, EY Canada, [Robert S. Prichard](#), Chairman of the Board, BMO Financial Group, and [David Leith](#), Chairman of the Board, MTS Allstream to advise on steps that leaders can take to diversify their boards, executive committees and talent pipeline and to accelerate change across corporate Canada.

The panel discussion will be followed by the bell ringing to open the Toronto Stock Exchange.

We hope you are able to join us.

RSVP to Joanna Harper at jharper@catalyst.org

A special thanks to **EY** for their generous support in making this event possible.

Date

Thursday, November 13, 2014
7:30 AM - 9:00 AM
