Invitation-only  
ITAC - WCT Women on Boards Discovery Day  
May 10, 2018 - Calgary, AB

On May 10 and 11, the Information Technology Association of Canada (ITAC) and Women in Communications and Technology (WCT) will host a series of events designed to inspire and encourage the advancement of women in digital industries, including technology, telecom, broadcasting and fintech. This program series is supported by the Alberta Ministry of Labour, with additional sponsorship from CGI and Microsoft Canada.

A key element of this series is an invitation-only day-long Board Discovery Day session on May 10. Women play a vital role in improving the governance of privately-held companies and other organizations by bringing their expertise and perspectives to serve board of directors. To better inform and educate a pipeline of top female candidates, ITAC designed the Board Discovery Day program and has already successfully delivered two successful sessions in Toronto, ON. Now we are bringing this program to Alberta, with the first session to be held in Calgary on May 10 to be followed by a second session in Edmonton this fall.

Board Discovery Day will be moderated by Mary Whittle and Lisa Carroll, Co-chairs of ITAC's Diversity Council, and lead by educators, experienced corporate directors and thought leaders on board governance. The session will cover the corporate board role, and will explore what women can do to increase their access to board opportunities, including a hands-on session to craft and submit a Board-appropriate resume. Following, attendees are invited to submit their resumes for review for our registry of Board Qualified Women from the Technology Industry.

Join us on *Board Discovery Day* to learn more!

**Date:** Thursday, May 10, 2018  
**Time:** 8:30 a.m. -3:00 p.m.
