Did you purchase a new device for your child this school year? ITWorld wants to know

ITWorld is profiling Canadian ICT executives and would like your input. Their topic: managing your child's access to technology.

Their question is: *"It's back to school time! Did you buy a new device for your child? If so, how do you manage their access to technology?"*

If you are interested in profiling your response, please provide one-paragraph answer and a headshot by end of day Friday Sept 14 to ITAC's Director of Membership, Mariana Kutin Morais at mkutin_morais@tiac.ca
