## Join one of ITAC Health's Committees – participation contributes to making a difference and influencing change

A number of our members have expressed interest in getting more involved in the ITAC Health community. Others may not be aware of some of the committees that operate under ITAC's Health division.

Currently, ITAC Health oversees three active committees – the ITAC Health Advocacy Committee, the ITAC Health Membership and Program Development Committee, and the ITAC Health Interoperability and Standards Committee. Each one has its own terms of reference and plays an integral role in shaping and influencing Canada's Healthcare sector.

Each committee will begin their 2018/2019 sessions soon and ITAC members are encouraged to participate. Click on the names of each committee below to learn more about the mandate and objectives of each one.

[ITAC Health Interoperability and Standards Committee \(ISC\)](#)

Contact Elaine Huesing, ITAC Health Executive Director, for more details and information at [ehuesing@itac.ca](mailto:ehuesing@itac.ca).

We look forward to hearing from you.
