Best Places to Work in Canada: Congratulations to our members who made the list!

Employer review site Glassdoor has released its list of the 25 best places to work in Canada, for businesses with 1,000 employees or more.

The reviews are a combination of overall company rating, career opportunities, compensation and benefits, company culture and values, senior management, work/life balance, the company's six-month business outlook, and whether a reviewer would recommend working there to a friend.

ITAC members who made the list this year include:

- Microsoft
- Telus

For the full list of winners for 2018, [click here](#).
