ITAC forms new Ontario Policy and Advocacy Committee

ITAC is pleased to announce the formation of a new Ontario Policy and Advocacy Committee. The Committee will guide ITAC in bringing its advocacy messaging to the Government of Ontario, help build relationships and engagement with senior political and bureaucratic leaders and ultimately influence provincially-focused Government decision making.

Members Regan Watts (IBM) and David Messer (Edelman) will Co-Chair the committee. ITAC members are encouraged to have their policy and government relations staff engage with this committee on key activities, such as Budget Submission recommendations. The committee will meet on an ad hoc basis.

To learn more, contact Nevin French, ITAC Vice President of Policy at nfrench@itac.ca.
