Export Development Canada legislative review 2018 report now available

The review of the *Export Development Act* has been completed, and the resulting report has recently been tabled in Parliament. You can access the report at the link below:

https://www.international.gc.ca/trade-commerce/inclusive_trade-commerce_inclusif/edc_lr-el_edc18.aspx?lang=eng

As a reminder, the Review asked whether EDC is maximizing its role in Canada's overall trade support ecosystem, and whether there is sufficient strategic alignment with Canadian industry needs. It also addressed whether EDC is demonstrating sufficient domestic and international leadership on issues of corporate social responsibility, human rights and climate change and whether EDC is developing the right suite of strategies and services to best support Canadian exporters, including whether existing limitations on the organization's total equity position should be modified.
