CELEBRATING SUCCESS THROUGH TECHNOLOGY

INGENIOUS

LA TECHNOLOGIE AU SERVICE DU SUCCÈS

As part of the awards program, we also recognize two *ITAC Canadian CIO of the Year Awards* recognizing overall excellence among Canada's community of Chief Information Officers (CIOs) – one from the private sector and the other from the public sector.

Last year, winners came from the healthcare, financial, interactive technology, enterprise mobility, and construction spaces. We were delighted to see nominations come from across Canada.

Nominees and award recipients include Canadians who work in business, government and other public-sector organizations and not-for-profit entities. There are six Ingenious Award categories, including the *Ingenious Spark*, created in 2017, to recognize a Canadian company that showcases an early growth and unique innovation that is looking to change the world or disrupt an industry.
