TECHNATION to launch new cybersecurity online tools

TECHNATION's Cybersecurity Talent Alliance will be launching new Cybersecurity focused online tools to help address the skills gap in Canada.

Coming in late summer, TECHNATION members and the tech industry as a whole, will have access to a **cybersecurity education portal** curated with Canadian cybersecurity training, a robust **job availability heatmap**, and an extensive list of **pre-populated cybersecurity job descriptions** ready to be used for your recruitment needs.

More information will follow in the coming months!
