## Register today for latest Ontario CCIO Briefing – Recovery, Resilience and BOLD New Vision

Twice a year, TECHNATION hosts a large-scale CCIO Briefing Event to offer: an open and transparent value exchange between industry and government; increased awareness of Ontario's current challenges and opportunities; and identify opportunities for innovative, citizen-centric digital solutions and collaboration, partnership, and co-creation.

TECHNATION has been collaborating with [Dafna Carr](#), CCIO & ADM, Ministry of Government and Consumer Services (MGCS) to design a year long program of forums and events that bring industry and government together to identify tech enabled supports needed during recovery and rebuild and partner for future resilience.

On June 11, forward-thinking Ontario CIO and ADM leaders shared their COVID-19 recovery plans as well as identified their most pressing needs and challenges to the tech community.

On December 2, [Robin Thompson](#), CTO, ON Public Service, MGCS will present and get industry feedback on Ontario's Technology Roadmap and Investment Plan (TRIP). We will also hear from Supply Chain/MGCS on Procurement as well as two additional CIO panelists. All Ontario CIOs participate in this event along with 30 additional Director level government leaders.

**December 2, 2020; 9:00-11:00 a.m.**

**Virtual**
